1. radio spares

Yahoo group: radiobazar
Date: 2010-05-10 05:51:11 UTC
From: roses
Topic: 1 Message: 1

while lot of hams may have excess rigs for sale, some also have lot of spares like transistors, ICs, special coils etc.. which they have acquired/purchased for particular project and abandoned later on - are
for sale - may also find listing in your group...

2. ATS-1 Kits for Sale

Yahoo group: radiobazar
Date: 2010-05-19 19:58:18 UTC
From: M.B.
Topic: 2 Message: 2

I have 2 ATS-1 kits for sale. I have bought few months back including 9 Mhz cristal and filters.

One kit is semi assembled and RX part is almost finished.
I have build it stage by stage and what ever is complete, is working.

Second Kit is unassembled except that few jumpers are soldered on the PCB.

Kit detals are available here...

http://www.vu2.in/ats1-20m-ssb-cw-transceiver-home-brew-project/34-ats-1-ver-20-20m-ssb-home-brew-kit.html

Cost for Semi assembled kit is Rs 4500 and other one would cost Rs 3500.
This price is lower than the current price and what I have paid.

Shipping and handling would be extra as actual. Would be sending it by Speed post or First flight courrier.

interested.....
send your email at mbsingh@...

I need Field strength meter from the Army disposal units. Model is ME-61/GRC

Should be in a very good condition.

They were available in Agra junk market some time back.

I have not been there for quite some time, may be they are still there.

If some one has it please email. I would like to buy it.

Hi
UMS colinear ants were the most affordale at around Rs 600 , many picked them up and a few are still in use.
But many did not take it looking for far cheaper ant
Sadly the overheads were high and they decided to discontinue it as it would be priced around 1K or a little over.
I understand they would consider if a bulk qty was confirmed like a club or group orders, having been trying to talk to UMS thro the local hams at CBE , hope it will workout.
In the meantime if clubs could send requests for revival with estimated requirements it may help.

From: M.B.Singh
Topic: 13 Message: 13
Attachments: 1 described; binary payloads are missing from this source WARC

Hi friends

Brand new product from ICOM is here.

It is made in Japan.

Fits many ICOM radios as is and many others with changing pin outs and/or connector.

Here it is.

ICOM HM-133 S/V

Following are the models that can be used with remote control features

Modular plug for IC-2200H IC-2100 IC-V-8000 IC-2720H IC-2725E IC-208H IC-E208 IC-207H IC-2800H IC-2820H IC-E2820 ID-800H ID-880H IC-E880 and many more.

If you need to use with any other non ICOM radios, it would work as a normal microphone without dedicated remote control features.

Home brewers keep looking for microphones from junk. They can use this microphone famous for its audio quality.

For those who use their radios mobile can use this microphone. They can install the radio below the seats or put it in the boot and use this microphone as a remote microphone whether they have compatible remote functions on their radios or not.

You must be wondering how?

This microphone has a cable with RJ-45 connector at both ends, replace it with a long cable crimped with common RJ-45 plastic connector used in computer networking. You will have your transceiver hidden from the eyes of unwanted elements.

This may also help those who always wished for longer cable to operate their radios from the cozy comfort of their beds or any other place of their choice. J J

It's List price is USD 110 and HRO sells it for $90. each microphone cost $ 23 to get here plus if you need to pay any duties. It's cost works out around Rs. 5500.

It is going to cost you Rs. 2200 but first 15 orders would qualify for early bird discounted price of just Rs. 1995

You may pick it up from Noida or get it shipped to your QTH by courier / speed post for Rs 80.

Hurry and order immediately before they disappear and claim your early bird discount.

You may deposit/transfer the amount in my HDFC BANK account no 0088 1000 238077 A/c Holder name M.B.Singh

Fortune arcade Sector 18 Branch NOIDA IFSC code HDFC0000088

Send me a personal mail at mbsingh@... with your payment details and address where you want delivery.

I would ship it within 3 business days.

Grab it now.

Hi! Sri,

Long time.....

No idea abt the current range of UMS, probably they may have shifted to the lucrative mobile and WiFi segment.

Years ago I had made a 4 el colinear, might as well make a 2 el one, should do a reasonable job. 75 ohms phasing harness required can be easily made from good quality CATV cables.

From: ABHAI S RAO
Topic: 18 Message: 18

Hi All, I AM REDUCING THE PRICE TO Rs 21000 FOR THE WHOLE SET!!!

I am willing to let go my VX-8R triband radio with the following accessories.
The radio is 3 months old, unused and in mint condition.

1. Yaesu VX-8R handheld radio.
2. FNB-101LI (1100mA) 7.4V battery pack
3. NC-86B wall charger
4. YHA-65 triband antenna
5. Original Box and Manual

Additional Accessories:

1. FNB102LI (1800mA) 7.4V High capacity battery pack
2. MH-74 Speaker Microphone
3. CD-41 Drop in charger

The above package costed me Rs.31,000/- including duty.
Expecting Rs.25,000/- for the whole package mentioned above.
Outstation shipping as applicable.

Reason for selling: To raise money.

Actual pictures of the radio have been uploaded to:

http://picasaweb. google.com/ abhaisrao/ VX8R#

The radio can be enabled with Bluetooth Hands-Free Operation with GPS/APRS and has Real RF-Dual Wideband Receive. The radio is submersible.

More specifications of the rig can be found at:

http://www.yaesu. com/indexVS. cfm?cmd=DisplayP roducts&ProdCatI D=111&encProdID= 64C913CDBC183621 AAA39980149EA8C6 &DivisionID= 65&isArchived= 0

23. FOR SALE : Kenwood VHF base : TK-708

Yahoo group: radiobazar
Date: 2010-07-03 02:16:41 UTC
From: bhat srikanth
Topic: 23 Message: 23
Attachments: 1 described; binary payloads are missing from this source WARC

Hello,

Want to sell my stand-by base/mobile VHF radio Kenwood TK-708.
Actual picture attached.

I bought this as a second VHF radio for standby / mobile use.
Expecting Rs. 4250 + shipping to your destination.
Reason for sale: Want to buy a dual band radio (and limit the number of radios i will have). Open for trade too.

For those not familiar with this model:
- Commercial version, LCD reads out channels, but frequency can be programmed on the radio, without PC or any other tool and on the field.
- Easy method to program channels. Display shows frequencies in programing mode but channels otherwise.
- Hold upto 16 channels, each with capability to store separate Tx and Rx frequencies and a CTCSS if required. This allows easy setting for repeaters of any shift.
- 20~25 watts RF output
- Manual squelch open (monitor) button exists, but not sure if squelch level can be adjusted to other than auto mode
- Standard SO-239 pigtail antenna port

Pros:
Good sensitivity, Kenwood style
Rugged
comes with brand new kenwood mic
Works perfectly well

Cons
- No S meter feature
- Radio has scratches, looks used
- Fixed RF output - No RF power adjustment control outside. RF can be adjusted only using a preset inside the radio
- I dont have a manual. Dont know the freq coverage (seems to accept a very broad range, but dont know if it meant to). But I know for certain it covers amateur bands.

- DC input does not have a connector on the end of the wire (may be a plus for many!)

Contact me direct if you want it.

To: radiobazar@....in
Date: Saturday, July 3, 2010, 7:46 AM

Hello,

Want to sell my stand-by base/mobile VHF radio Kenwood TK-708.
Actual picture attached.

I bought this as a second VHF radio for standby / mobile use.
Expecting Rs. 4250 + shipping to your destination.
Reason for sale: Want to buy a dual band radio (and limit the number of radios i will have). Open for trade too.

For those not familiar with this model:
- Commercial version, LCD reads out channels, but frequency can be programmed on the radio, without PC or any other tool and on the field.
- Easy method to program channels. Display shows frequencies in programing mode but channels otherwise.
- Hold upto 16 channels, each with capability to store separate Tx and Rx frequencies and a CTCSS if required. This allows easy setting for repeaters of any shift.
- 20~25 watts RF output
- Manual squelch open
(monitor) button exists, but not sure if squelch level can be adjusted to other than auto mode
- Standard SO-239 pigtail antenna port

Pros:
Good sensitivity, Kenwood style
Rugged
comes with brand new kenwood mic
Works perfectly well

Cons
- No S meter feature
- Radio has scratches, looks used
- Fixed RF output - No RF power adjustment control outside. RF can be adjusted only using a preset inside the radio

- I dont have a manual. Dont know the freq coverage (seems to accept a very broad range, but dont know if it meant to). But I know for certain it covers amateur bands.

- DC input does not have a connector on the end of the wire (may be a plus for many!)

Contact me direct if you want it.

25. ICOM HF for sale

Yahoo group: radiobazar
Date: 2010-07-15 19:02:32 UTC
From: M.B.Singh
Topic: 25 Message: 25

Hello Friends

I have a ICOM HF Radio that I have bought a couple of months ago and I have hardly used it for an hour or two.

It is in superb condition.

Check this out.

http://www.technicaltradersofindia.com/icom.htm

This HF is looking for more caring home where it is being used on a regular basis.

Radios are not made to sit around in shacks. Keeping them in that way is a crime.

I do not want to stack radios in my shack. It should go to someone who really need it.

From: M.B.Singh
Topic: 29 Message: 30

Dear Rakesh

It was nice indeed to talk to you too. It is good to hear that that ICOM 77 was not so balanced? I could not understand what was not so balanced?

It is not a home brewed rig. So question of somewhat balanced or not balanced does not arises. So your comment seems to be vague and highly motivated with some malafide intentions. All other questions are also waste of time as this is not a radio made in a dingy room and no information is widely available. Net is full of information and user manual is freely available to download and review.

Your question about the price in your earlier email was also not proper Price is high, What lowest can you accept???

You should have told "How much you can afford for this radio"

Price may be high, balancing is out , audio is vey bassy and it also drift 5 KHz a minute.

This radio will be better in my car where I can speed up to compensate the drift JJ

You missed the condition with the radio that

This HF is looking for more caring home where it is being used on a regular basis.

Radios are not made to sit around in shacks. Keeping them in that way is a crime.

I do not want to stack radios in my shack. It should go to someone who really need it.

You certainly don't fit in this. Do you?

I have been offered Rs 18K and this radio will go for Rs 20K or to a ham who called me and said He is desperate to get it but barely afford to pay Rs 15K. No one would be more caring than him.

One more point to make, this is a group to advertise your ham gear within ham community and not a discussion forum about those equipment.. Users must know how to use the group. They are supposed to send individual emails and should not press reply button to the group with a question regarding the product.

Thanks for your email.

Hope to meet you more often on air.

From: M.B Singh
Topic: 37 Message: 37
Attachments: 1 described; binary payloads are missing from this source WARC

This is on behalf of VU2ASB. Download the attached file for pictures.

Description: Two implementations, one using steel and other using aluminum, of the Center Piece of a Boom-less Two Element Spider Quad are available for sale. These implementations are based on a QST article written by HB9PL.

The center pieces (see Figure-1 and Figure-5) consists of three elements, viz. the mid-piece and two end-pieces (see Figure-2 and Figure-6). The design allows the end pieces to rotate about the axis of a central nut; this proves very useful for maintenance. All care has been taken to ensure that the implementation conforms to the original design guidelines (see Figure-3 and 4) like inclination of the eight arms from the center piece at the precise angle and all welding was done Argon Welded (MIG). The center pieces are ready for use on a mast.

I shall be happy to answer any questions and can be reached on my mobile phone number: 9810237833.

Hi
VU2GX Om Girimaji (SK) had fabricated this design sometime in 1977 or so and many hams had picked up the same .
Boomless cubical quad was quite popular using bamboo spreaders.
No his harmonic VU2GGM Poru does make them on order , he can offer fibreglass spreaders too.
Happy hoomebrewing

50. Equipment For Sale

Yahoo group: radiobazar
Date: 2011-04-23 02:13:32 UTC
From: Madhukar VU2MUD
Topic: 50 Message: 50

For Sale:
Tecsun PL-600 with orignal Box and all standard accessories Used for just 2 weeks. Excellent condition, excellent reviews at the link below.
http://www.eham.net/reviews/detail/7627

Specifications:
* FM: 76.0 - 108.0 MHz
* AM (MW): 522 -1620 KHz
* LW: 100 - 519KHz
* SW: 1711-29999 KHz
* Speaker: 25 ohm / 1 watt speaker
* Headset jack socket: 3.5 mm
* External DC supply socket: 6 mm (positive center)
* Sensitivity
* FM: ≤ 3uV
* MW: ≤ 1mV/m
* LW: 1mV/m * SW: ≤ 20 uV
* Rechargeable batteries: 4 NI-MH batteries
* Size: 181 (L) x 116 (H) x 31(W) mm
* Weight: 445 gramsFeatures: * Both MW / SW brand using Dual Conversion Technology to achieve higher quality reception

* Auto Tuning Storage (ATS)
* 600 Station Memories
* Treble / Bass Tone Control
* MW Wide / Narrow Bandwidth Selectable
* Fast / Slow Tuning Selectable
* Sleep Timer Function with 1 ~ 120 minutes setting
* Dual Alarm Clock with 12/24 hour setting format
* Orange back-lit LCD with Frequency, Clock, Battery level & Reception strength

* DX / Normal / Local antenna gain selection minimizes the background noise of the broadcasting

* Reset Function
* Built in intelligent rechargeable function
* FM & SW external antenna jack What's in the box:
* Tecsun PL600 radi, Silver
* 220 V/AC Adapter
* Earphones
* 4 X AA NiMH rechargeable batteries
* Carrying pouch
* User manual (English)
* Wire shortwave antenna
Selling as I am going in for a transceiver. Preferably in Bangalore but will

courier anywhere (charges at actuals)

53. LDG Z-100 Plus auto tuner for SALE

Yahoo group: radiobazar
Date: 2011-05-07 14:26:16 UTC
From: M.B.Singh Technical traders of India
Topic: 53 Message: 53
Attachments: 1 described; binary payloads are missing from this source WARC

I have few LDG Z-100 Plus automatic tuners for sale.

These are new units. Original Box may not be available.

The cost in USA is $159.90 and shipping cost by USPS priority mail is $45

So landed cost may be Rs 10000 but here few lucky hams may get it for just
Rs 5000 including shipping.

Local pickup is ok with me. No external SWR meter required.

I would not respond if email with any query is sent to the group.

73's

Bhanu

VU2MB

http://www.ldgelectronics.com/c/252/products/1/49/1

Following are the specification and details..

LDG's popular Z-100 economy tuner is now the Z-100Plus. Still small and
simple to use, the Z-100Plus sports 2000 memories that store both frequency
and tuning parameters. It will run on any voltage source from 7 to 18 volts;
six AA batteries will run it for a year of normal use. Current draw while
tuning is less than 100ma.

The Z-100Plus now includes an internal frequency counter so the operating
frequency is stored with tuning parameters to make memory tunes a blazingly
fast 0.1 seconds; full tunes take an average of only 6 seconds.

SPECIFICATIONS:

RF Power: 0.1 to 125 watts SSB, CW and digital modes.

Latching relays for ultra low power consumption

2000 memories sorted by frequency.

1.8 to 54 MHz coverage (continuous coverage for MARS)

Tunes 6 to 800 ohms. (16 to 150 on 6M)

SO-239 in and out connections for dipoles, verticals, beams, G5RV, OCF,
Cobra, etc.

7 to 18 Volts DC, 100 mA.

Dimensions:

5.5"L, 5.5"W, 1.5"H.

Weight: 16 ounces

Includes 1 foot Icom / Yaesu 857/897 interface cable and 1 foot coax jumper.

57. HFI 2011 Early Bird Regn Extended

Yahoo group: radiobazar
Date: 2011-08-01 06:45:04 UTC
From: Ravindran
Topic: 57 Message: 57

We are happy to see that the number of delegates registered for Hamfest India 2011 is approaching 400! Out of this 275 have confirmed till noon of 1st of August. Early Bird Regn @ Rs. 400/= is extended up to and including August 15th, 2011 (The amount should be realized by this date). After 15th August up to 5th December 2011 - Rs.500/- per person. On the spot registration - Rs. 1000/- per person. The extension is due to the general feedback that many people are not known about the event even now. So let us inform all friends and together as a team we make the event a big success. Please look forward for the upcoming new site.

Thank you.

Topic: 59 Message: 59

Hello Radiobazar friends,

I am new to this group. I am expecting that most of you are in India. I am an electronics enthusiast in the USA (am EX-UK) - and I sometimes buy and sell radio parts.
I wonder if there are any parts suppliers in India or in other parts of Asia who manufacture electroinic parts such as capacitors, crystals, resistors etc.
If so, I would like to talk with you about possibly buying some things from you, or trading or just having discussions here about radio parts that you enjoy, especially old military surplus radio parts etc.

I look forward to chatting with anyone on this list or via personal e-mail, and I wish everyone all the best.

Sincerely,
Brian Carling (Radio AF4K / G3XLQ)

Subject: [radiobazar] VHF High Power amplifiers

I Would like to know if there are hams interested in DAIWA LA-2090 HDH
90 Watts RF amplifiers with 15db low noise pre-amps for RX?
Would intimate further details later when I have them. No idea about
final price yet.
Its good for EME etc.

FM/SSB/CW, 1-5 watts input, 90 watts output. Built-in 15db pre-amp

74. Daiwa VHF AMP + Yaesu FT-90R Dual band Mobile + ICOM CT-17 available

Yahoo group: radiobazar
Date: 2013-01-19 05:48:17 UTC
From: M.B.Singh
Topic: 74 Message: 74

Hi
Following equipment is available for SALE

Daiwa VHF 90W all mode Amplifiers have come in the original packing. Model LA-2090H with 15 dB GaAs Fet preamp for RX available. Price Rs 8500+ Shipping

Yaesu FT-90R 50/35W Mobile Radio (2) available They are brand new but Microphone cable is brittle and may need replacement with similar or 6 core shielded cable.
Here are some specs. Price Rs 15000+Shipping.

The *Yaesu FT-90R* 2M/440 amateur transceiver is ultra compact almost beyond belief. It is merely 4 x 1.2 x 5.4 inches (100x30x138 mm), but packed with features and power. Receive coverage: 100-230 MHz, 300-530 and 810-999.9 MHz (less cellular). Sophisticated scanning methods are available including: VFO Scan (entire band), Memory Scan (with skip option), Programmable Scan (scan spectrum defined by two memory frequencies), Priority Channel Watch and Smart Search^(TM) (automatically loads a special 50 channel bank).

The FT-90 receives air band and has CTCSS/DCS encode/decode. Output is 50/20/10/5 watts on 2 meters and 35/20/10/5 watts on 440 MHz. The hand mic supports scanning and memory channel selection. The hand mic keypad can also be used for direct frequency input, memory recall or DTMF entry.

Features:

* 186 Memories
* Brightness/Contrast
* Auto Repeat Shift
* DTMF Mic
* Time Out Timer
* Battery Voltage Meter

* CTCSS Encode/Decode
* DCS Encode/Decode
* Packet Ready 1200/9600
* Extended Receive
* Automatic Power Off
* ARTS^(TM) Auto-Range Transponder System

ICOM CT-17 Level converter Connects 4 ICOM Radios to your computer to be used with logging softwares and other operations. Price Rs 7000 with all cables.

76. FS: New coils - 50 cents each

Yahoo group: radiobazar
Date: 2013-01-20 20:40:25 UTC
From: Bry Carling
Topic: 76 Message: 76

FOR SALE - attention homebrewers QRPers and experimenters....

$10.00 package deal on 20 brand new coils and IF transformers. New in their original plastic
boxes and looking like they should as brand new coils in the package. These are mostly WORKMAN BRAND coils. Many of them are adjustable. While some are listed as video coils, they usually have an inductanc ethat is suitable for any type of RF signal.

I have over 200 of these coils and parts as listed at:
http://af4k.com/coils.htm

I don't have time to go through them all and pick specific coils for any buyer. Please don't ask. First come first served on the IFTs. Therefore the price is way below cost. They are priced to move and I don't have much ability or time to pick and choose. I will try where
possible, but you will not be disappointed.

Sincerely,

Bry AF4K

77. FS: Military Comms Crystal Box

Yahoo group: radiobazar
Date: 2013-01-25 11:46:36 UTC
From: Bry Carling
Topic: 77 Message: 77

For Sale:

Signal Corps crystal boxes - will hold up to 120 type FT243 or FT241 radio crystals
in a convenient, oirganized case that lets you find them quickly and easily.

The piano hinges and all aspects of the case are in excellent shape. These have latching
covers and felt pad liners in good condition.

First type is the familiar CS137 crystal case - excellent condition.
The dimensions are 11" x 4.35" x 3". A picture of a similar one may be found here:

http://www.bwgsurplus.com/web/sc_misc/cs137.jpg

Second type is a more flat-looking BX40 crystal case also in excellent condition. It has one
flat tray of crystals. This is a rather rare and military excellent case. The lid and piano hinge
and all other aspects of this case are in excellent shape.
Dimensions are: 11" X 8" X 2"
Picture of a similar one can be found at this web site:

http://af4k/com/imag/ham/bx40.jpg

E-mail me to arrange purchase or see:
http://www.af4k.com/miscpart.htm

79. FS: Pair of nice CBS 6L6GC tubes

Yahoo group: radiobazar
Date: 2013-01-25 14:54:29 UTC
From: Bry Carling
Topic: 79 Message: 79

FS: Pair of nice 6L6GC tubes

CBS - Made in USA. These work fine and they test at over 100% on my Sencore TC142 tube tester. They look like new except the pin locators on the bottom are broken off. This is no big
deal. You just take care to line them up properly when plugging thenm in and they will do fine. They will be carefully packed for safe shipment.

Will sell the pair for $12.00 plus shipping.

Regards - Brian Carling

80. FS: Yaesu FL2100Z

Yahoo group: radiobazar
Date: 2013-01-26 13:06:03 UTC
From: Bry Carling
Topic: 80 Message: 80

FOR SALE: YAESU FL2100Z Linear Amplifier.

This is an HF linear amplifier rated for 1200W PEP input, and using two 572B triode tubes
Matches the FT-101Z and FT101ZD models and also the FT901, FT901DM, FT902 etc.
Will work great with any typical HF transceiver. I typically see 500-600 watts output on CW and 700 - 750 watts p.e.p. on SSB. All the advantages of a tube final in a compact package with built in AC power supply. Set for 120V AC.

Very few of these are still available, and many think of them as having some improvements over the older FL2100B etc. Very few of these excellent model amp are available.

Covers all 160m - 10m amateur bands including WARC. Working 100% and looks excellent inside and out. Has been cared for very well, in a non-smoking environment.

Has a brand new set of 572B tubes recently installed in it. They have about 2 hours on them.
Has full output per the manufacturer's specifications on all bands. You won't find a better example of this amplifier to go with your station. Clean as a whistle. If you have ever considered one of these now is your chance.

Pictures available on request.

Available for $595.00 plus shipping.

Brian Carling, AF4K

FOR SALE: Yaesu Landliner Speaker / Patch

Goes with the FT101 / FT101B or FT101E / EE / F series radios. Works fine and can also be easily used with other Yaesu radios. It has built-in controls and a level meter which is kind of cool.

Pictures are available on my web site (or will be later this evening)

http://af4k.com/radios.htm

Available for $75.00 plus shipping.

Bry, AF4K

82. FS: BAGS of BNC connectors and adapters

Yahoo group: radiobazar
Date: 2013-01-29 12:13:02 UTC
From: Bry Carling
Topic: 82 Message: 82

For Sale:
Three bags of BNC connectors and adapters.

Each bag contains 25 items - some new, some used, all in good usable condition.
There are 3 or 4 BNC T-adapters in each bag. There are also 3 or 4 terminators.
You will get a mix of plugs and also adapters to go to things like "F" connectors, PL259, sma etc. Cable end, chasis mount etc. There may also be one or two "F" splitters and other unlisted item,s but the vast majority of these items are BNC adapters and connectors.
A few are brand new, bagged or carded items still in their package. Several of the others are unused but not in a package. Some are used but in very good condition.

The three bags of BNC items are available for $12.50 per bag plus $6.50 for USA shipping.
Reply by e-mail if you would like to have one, or all of them.

Best regards - Brian Carling, AF4K

84. FS: Hefty 50V AC at 13A transformer

Yahoo group: radiobazar
Date: 2013-01-31 02:40:11 UTC
From: Bry Carling
Topic: 84 Message: 84

For sale:

Power Transformer. Wired for 120V AC primary, but can be rewired for 240V AC.

Secondary 1: 50V AC at 13A continuous. Comes with a bridge rectifier that produces 70V DC under no-load conditions. About 65 - 68V DC with a load. Also available - a suitable,
high-grade 9800 uF at 100V DC capacitor. Makes a complete, unregulated 68V DC supply with plenty of power.

Secondary 2: 120V AC at about 2 amps, unregulated. (isolated)

The above are conservative ratings. Weight is 34 pounds.
Dimensions approx: 7" X 6.5" X 5.25"
Clean, excellent condition. Comes with all mounting hardware.

QTY 1 available for $35.00 plus shipping.
Capacitor available for $4.00 with transformer.

85. FS: Groups of Tube-era Terminals

Yahoo group: radiobazar
Date: 2013-02-03 13:57:23 UTC
From: Bry Carling
Topic: 85 Message: 85
